COPING TIPS:

- Write things down.
- Store important items like keys in a designated place to keep from losing them.
- Pace yourself and take breaks as needed.
- Focus on one thing at a time.
- Allow time for your brain to heal. It's the most important thing you can do.

RECOVERY TIPS:

- Avoid smoking or drinking.
- Sit out of contact sports.
- Get enough sleep — 7 to 8 hours a night.
- Take medications as instructed.
- Avoid overexerting yourself physically or mentally.
- If you're concerned about your symptoms or if they're not improving, see your provider.
- Stay engaged with your family and provider as your symptoms improve.
